Making Masks to Protect Our Community

Lincoln, NE 06/13/2020 – In early 2020, the world fell victim to hard times brought on by the Covid-19 Coronavirus. Here at ComfortMade Mattress Factory, we wanted to help keep our community stay safe throughout the pandemic.

In March of this year, we switched our focus from building mattresses to making protective face masks. In doing so, we converted a portion of our production area toward making those masks to donate to anyone in need. After designing roughly a dozen different prototypes, we were able to design a reusable cloth mask that covered both the mouth and nose while still being comfortable to wear. Although we are a small local shop, and every mask was cut and sewn by hand, we were able to donate just over 400 masks to various individuals, small businesses, and non-profit organizations during the height of the pandemic. We are thankful for our friends, family, and those members of our community who stepped in, helped cut and sew, and reached out to those in need to let them know we could assist. 100% of the masks provided were donated free of charge, and we are honored to have helped give back to the community that has supported us along the way.

ComfortMade Mattress Factory is a locally owned and veteran-led business serving the Lincoln, NE and surrounding communities. Comfort comes first at ComfortMade Mattress Factory, and every mattress is made to our guest's individual preference, style, and ultimate comfort. Each of our mattresses are hand-crafted in our retail store to provide the ultimate flexibility in creating a sleep system specific to each individual's comfort levels.

ComfortMade Mattress Factory's mission is to positively impact the citizens of our communities through better sleep and through giving back to the communities we serve through our "ComfortMade Cares" program. ComfortMade Mattress Factory was established in 2017, and opened our first retail location in Lincoln, NE in April 2019.
